

TESS. More moments that matter.

Therapeutic Engagement and Support System — a welcoming tablet experience for communication, entertainment and shared engagement.

What TESS brings together

Activities for conversation and communication, AI chat, sign-based interaction, entertainment, games, reminiscence and radio. Available features depend on the app release, plan, connectivity and any required third-party accounts.

TESS is designed to support shared moments between residents, families and care teams. Let the person's interests and preferences guide the activity.

Different ways to take part

Explore touchscreen, keyboard, mouse or stylus use with compatible accessories. Choose a comfortable interaction method and the right level of support. Not every activity or interaction method will suit every person.

The tablet offer

The advertised base offer is £120 for one tablet with 12 months of TESS Premium included.

One TESS tablet and 12 months of TESS Premium. Ask us to confirm the final hardware specification and accessories before ordering.

VAT treatment will be confirmed in your quote before payment. Delivery cost and timing will be confirmed for your address before payment.

The price and options after the included 12 months will be confirmed before you order. No ongoing subscription is created by an enquiry.

Your own tablet

The TESS app is intended for compatible iPad and Android tablets with a free download. Ask for current store availability, minimum operating-system requirements and the features included in the free and Premium plans. This website does not yet publish verified store listings.

Before use in a care setting

Confirm account permissions, shared-device arrangements, connectivity, hygiene instructions, charging and support. Trial activities with the person and offer a way to stop or change activity.

AI may be inaccurate. TESS does not replace clinical advice, an emergency system, a carer or a qualified interpreter. No claim is made that TESS treats, prevents or diagnoses a condition.

Before you order

An order enquiry is not a purchase, reservation or subscription. Confirm the legal seller, exact specification, full payable price, delivery, Premium activation/renewal and cancellation terms before payment. Product photography is illustrative; it is not a contractual accessory list.

A useful next step
